

## announcing our new swatch program

### Online Viewing, Easy Ordering

We're pleased to introduce a new addition to our Enlightened Style website - digital swatches for all products (excluding aluminum blinds and shutters.) They can be found at [enlightenedstyle.com](http://enlightenedstyle.com). Click on the product category and scroll down to the colors & fabrics section.

You can search and filter swatches to find just what you need, as well as enlarge swatches for a closer look. Each is labeled with the style name, color and color number for your convenience.

### Order Swatches for your Customers

A digital swatch is a terrific springboard to narrow down the search, but an actual swatch can help cement the sale.

[Click here](#) to order your free sample swatches. We're offering the first 10 swatches you order at NO CHARGE. Each additional swatch is \$2.00.

We hope these tools enhance your virtual selling process and we wish you great success.
