Safety Wand

S-Curve Vanes

Classic style from top to bottom (and of course, side to side), Enlightened Style Vertical Blinds upped their game in patterns, textures and color. Up to 134 stylish SKUs worth!

Product Overview

- **Vinyl** dominates our offering with everything from subtle patterns to rich, embossed textures — a truly functional choice for light and privacy control
- **S-Curve** vinyl vanes feature an S-shaped design for a graceful, drapery-like appearance; interlocking vanes block out more light than traditional curved vanes
- **Fabric** vanes, in a variety of elegant light-filtering styles and **two new blackout styles**, create a gentle ambiance with their gorgeous patterns and on-trend palette
- **Easy to install**, our track system provides smooth, quiet operation and synchronized carriers for uniform performance

Control and Design Options

- **Control choices** include the safety wand option (ideal in homes with children and pets) and traditional chain and cord system — both provide easy rotating and traversing of vanes
- **Optional vinyl insert groovers** maintain the soft fabric look while increasing privacy, light control and energy efficiency
- **Ultrasonically sealed-in weights** are standard on all fabric free hang blinds
- **Bottom chains** are available at no charge on any free hang fabric or vinyl upon request
