QUICK START GUIDE
SHC™ with Brilliant
INTEGRATION SUPPORT

SMART HOME COLLECTION PULSE PRO OVERVIEW

Elevate your Smart Home Collection experience by seamlessly integrating SHC motorized shades with Brilliant Smart Home control systems. The SHC Pulse Pro Hub offers a powerful integration with discrete shade control and two-way communication, providing real-time updates on shade position and battery levels. Featuring both Ethernet (CAT 5) and 2.4GHz wireless connectivity, the Pulse Pro Hub ensures smooth home automation integration through an easy-to-access RJ45 port located on the back of the hub. Each hub supports up to 30 shades, making it a versatile solution for any home automation setup.

ABOUT PULSE PRO AND BRILLANT CONTROL PANEL: Your Pulse Pro turned bright. Brilliant Home control via SmartThings is the next level to operate all your smart devices under one system. The control panel comes with a camera, speaker, and microphone to take in voice commands for Google, Alexa, or HomeKit. Acquire the Pulse Pro hub, SHC app, SmartThings app, brilliant app, and Brilliant Control Panel for full system control.

GETTING STARTED:

In order to integrate your motorized window treatments with Brilliant, you will need to have:
- Downloaded the free SHC App via Apple App Store (available under iPhone/iPad apps) or the Google Play Store.
- Purchased one or more SHC Pulse Pro hub(s) depending on size of the space and additional repeaters if necessary.
- Install all shades/blinds/motors at desired locations.
- Connect the Hub to the SHC app.
- Integrate your motorized window treatments onto SHC Pulse Pro app.
- Link your Pulse Pro account with SmartThings app.
- Download a Brilliant App and Create an account.

Note: **Free SmartThings app & account is required for Brilliant Smart Home integration**

BRILLIANT FEATURES:

All in one Smart Home control on one platform. Devices can be operated via Brilliant Control panel or brilliant app. Ease of use for users of all ages figure to operate in seconds! A microphone on the control panel for voice command ready via Alexa, Google, or HomeKit. Local operation capable when your internet connection is done. A camera used for motion sensor and security along with two-way communication via the app and control panel.

1. How to integrate SHC Pulse Pro to Brilliant Home:

1. Enable Automate Shades V2 skill via SmartThings app.
2. Link Brilliant with SmartThings
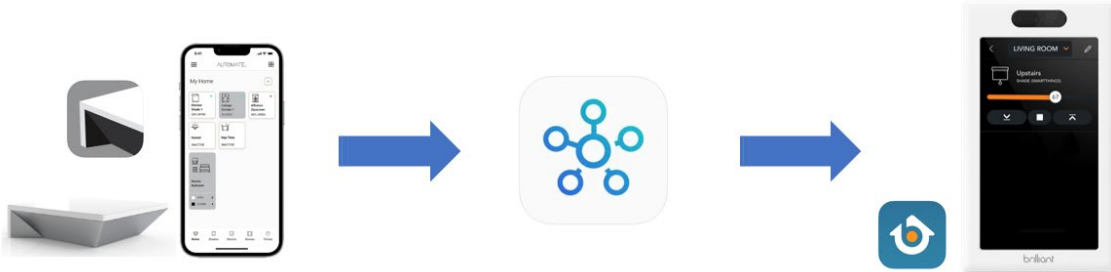

2. SMARTTHINGS ACCOUNT SETUP:

Set up your SmartThings App
First, get the free SmartThings mobile app for Android or iOS. After downloading and installing the SmartThings app on your smartphone:
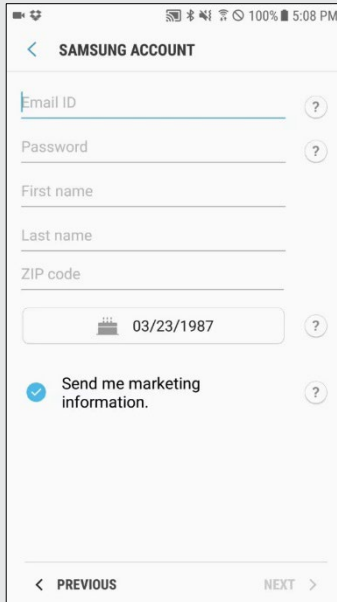

1. Download the SmartThings app!
2. Tap Sign In > Create account
3. Enter your email address and set up your password
4. Enter your first, last name, ZIP code and date of birth
5. Tap Next > Done
6. Select your country > Tap Continue

STEP 2

Tap "Sign In". Then tap "Create Account."

STEP 3

Enter your email address, password, and personal credentials to set up a new account.

3. ENABLE AUTOMATE SHADES V2 SKILL via SMARTTHINGS:
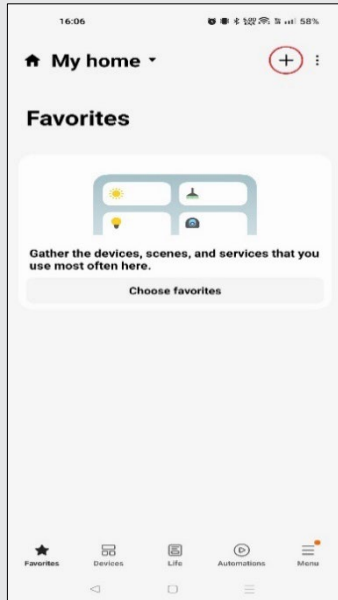

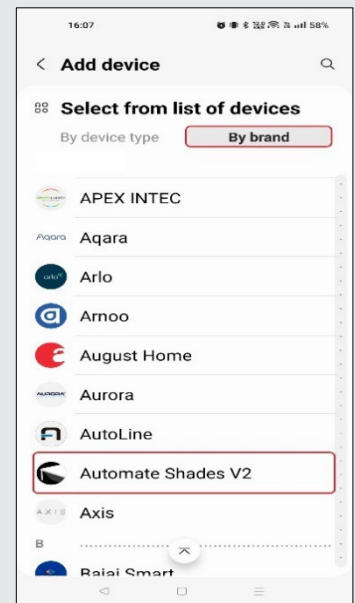

STEP 1	STEP 2	STEP 3
Open the SmartThings app and select "+"	Select "Add device"	Select "Automate Shades V2"
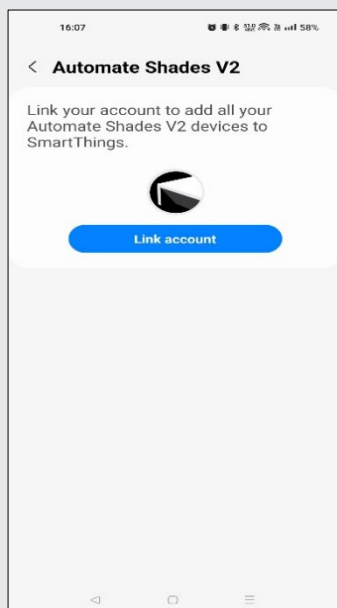

| STEP 4	STEP 5
Select the "Link account" to integrate.	Select your home location to add the devices.
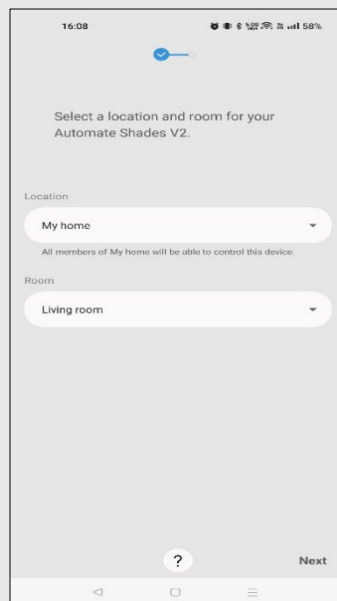

STEP 1
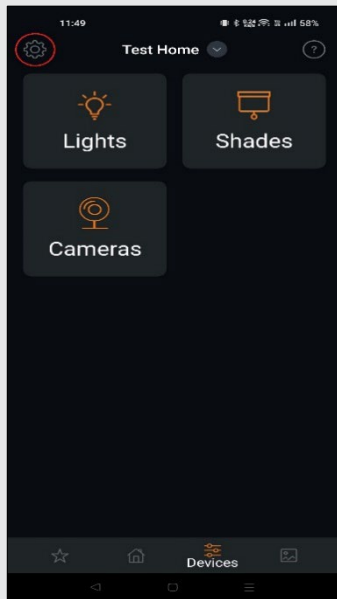

Select the configuration wheel on the top left.

STEP 2
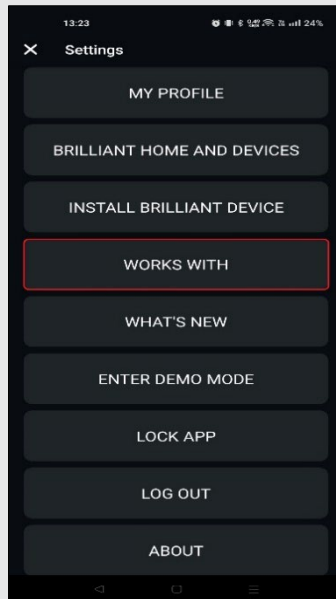

Select "WORKS WITH"

STEP 3

Select "SmartThings" to integrate with your app.
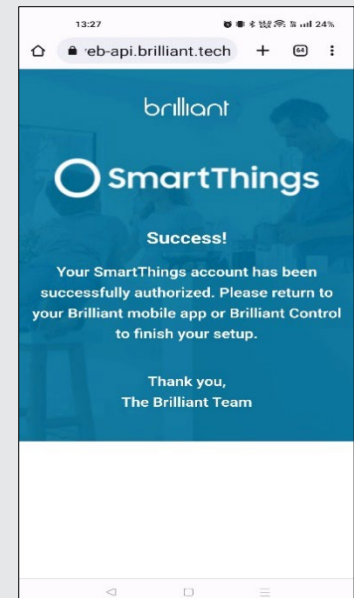

STEP 4

Login with your credentials to link Brilliant with SmartThings

STEP 5

Select your home location and click "Authorize."

STEP 6

Your browser will open to brilliant website to inform you of a successful integration - go back to brilliant app.
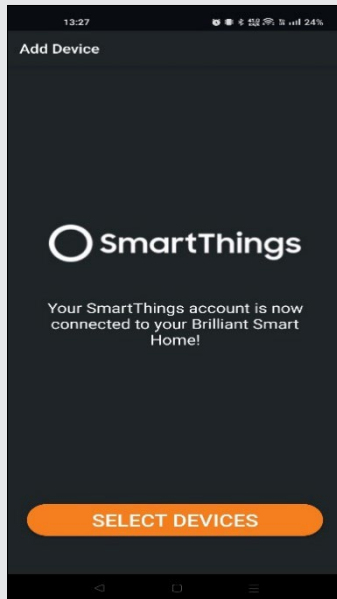

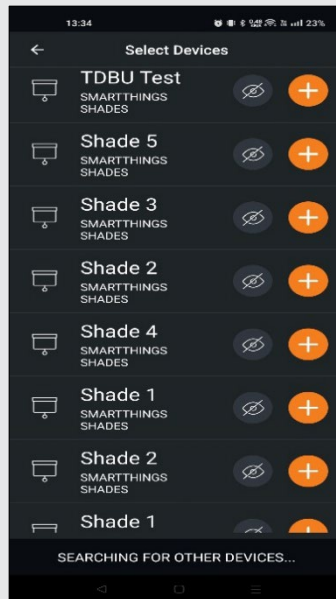

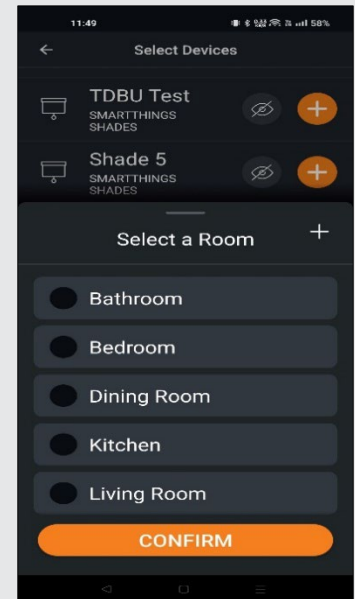

## STEP 7

Select "SELECT DEVICES"

STEP 8

Select your devices by pressing the "+" button.

STEP 9

Select the room for this device and confirm.

STEP 10

Enter the shade name then select "ADD DEVICE"

5.   OPERATE SHADES VIA BRILLIANT CONTROL PANEL AND APP:

STEP 1	STEP 2	STEP 3
Select the Room and control the shades by using the SLIDER.	Use the discrete Open, Close, and Stop button to move your shades to a desired position.	Select the shade you want to control and move the SLIDER to a precise position.
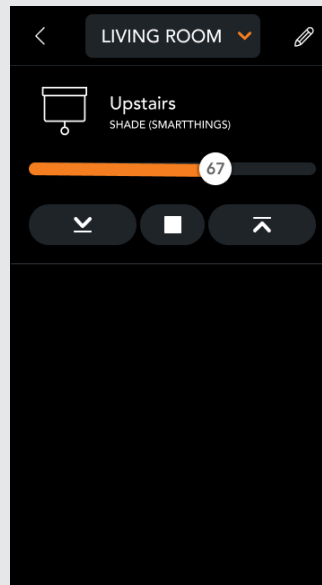

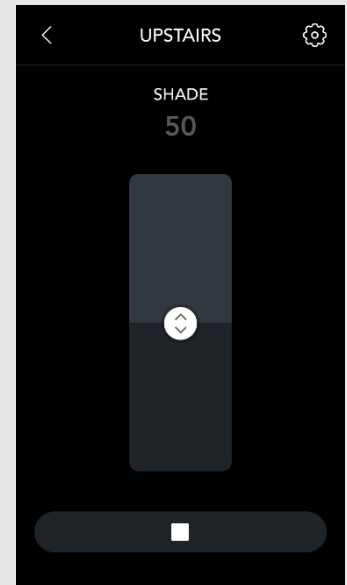

6.   TIPS:

- Naming your shades accordingly in the SHC app will reduce the work of naming the shades later linking via SmartThings & Brilliant Home.

- Use the same App Credentials you have with SHC App, Smart Things and Brilliant for seamless integrations.

FREQUENTLY ASKED QUESTIONS

Do I have to use SmartThings?
Yes. SmartThings is the only way to integrate your Pulse Pro with Brilliant.

Do I need to purchase a SmartThings hub?
No. Only the free SmartThings app is required.

Can I use the brilliant app without the control panel?
Yes. You can download the Brilliant App and create an account without a need of having a control panel to integrate with.

Does the Pulse 1 work with Brilliant?
No. There is no integration with Pulse 1 Hub and Brilliant Smart Switches.

Can I use the SmartThings Integration without a Brilliant Panel?
Yes. The Pulse Pro Hub has a native integration with Smart Things.

How can I connect my window treatment to Brilliant?
By utilizing the SHC app with SmartThings, you can use the existing integration to link all your Shades into Brilliant App and integrate with everything else you already have on your Control Panel.

Why do I need to use SmartThings app to integrate Shades with Brilliant?
SmartThings is the medium between the Pulse Pro hub and Brilliant Home.
